

The second annual Pelican Lake Healthy Water and Fish Committee Ice Fishing Derby was held on Saturday March 7, 2015 in the northern basin of Pelican Lake in Ninette, MB. The derby was a great success with 379 Adult anglers and 87 Junior anglers that came out to fish. With reports of slow fishing over the last few months, we were happy to see during the four hours of derby fishing a total of 234 fish were measured; 69 Walleye, 117 Northern Pike, and 48 Perch. Congratulations to Ryan Thomson of Morden, MB, who caught the longest fish overall in the derby; a Northern Pike measuring 113 cm. (All of the derby winners are posted at www.healthylake.ca). Thank you to all of the anglers who attended, and a special thank you to all of our hardworking and tireless volunteers! All proceeds will go towards our continued aeration efforts in Pelican Lake. Please visit www.healthylake.ca for more information.
